DIRECTOR'S VOICE

It gives me immense pleasure to place before you all the dignitaries annual report 2019 which has been a very successful year for CCP-SPUP.

The making of 'Progress Report' public of any organization is always a moment of dialectical thought as it gives all stakeholders an opportunity to reflect over achievements and failure, happiness and disappointment, promises and actualities and nature of coverage on path of development.

Centre for Child Protection, within the short span of around five years of its inception, has got a prestigious place on Global and National academic map. It has made different orders of bureaucracy sensitized towards issues of children.

Child cannot be accepted as (private) property, s/he is a 'subject of Right' is the philosophy of Centre for Child Protection. The Police-Society interface with Child Right perspective has now been accepted and it is the achievement of CCP. However, we have yet to make more organised efforts to realize the expectation that Child is treated by society as creative, innovative and enlightened being. We at CCP are confident that this expectation will be met out one day. Team CCP is committed to relentlessly work and to undertake all possible activities in this direction.

As Director, I acknowledge the contributions of Vice-Chancellor (former & present) of SPUP, former Director CCP and team members of CCP whose efforts have given a proud name to CCP.

The work done by CCP in the year 2019 is before you all in this report. Please feel free to send us your feedback, suggestions and critical analysis so that CCP could search space of further advancements as we continue our journey for creating 'democratic-egalitarian world' for children.

INTRODUCTION

ABOUT US

Sardar Patel University of Police, Security and Criminal Justice, Jodhpur is established by an Act passed by State Legislature, Government of Rajasthan. To affirm Rajasthan Government's Commitment towards adopting a rights-based approach to address the continuing and emerging challenges in the situation of children, the Sardar Patel University of Police, Security and Criminal Justice (SPUP), established Centre for Child Protection (CCP) in the year 2015. CCP was established with the mandate to be a coordinating link between different departments working for and with the children for creating and promoting just, protective and enabling environment for children, in partnership with the various child rights actors. The Centre has been given opportunity by SPUP to study and examine the relationships between a child and the society. CCP at present, is mainly engaged with issues of Child Rights, Child Protection, the Social World of the Child and Cultural Constructions of Childhood by using several theoretical perspectives and field studies. The Centre has also found that issues of Child Rights and Child Protection have also attracted academia and other sections of the society marginally as far as a comprehensive understanding of these issues is concerned.

Research & Publications

'Research' being one of the core activities, the Centre focuses on conducting analytical studies on different issues related to children. These researches are conducted so as to analyze and understand the actual situation the children are into and pave ways for formulating preventive mechanisms and corrective plan of action. In a short span of five years, the Centre has conducted nine such studies reflecting various aspects of childrens' lives and the way they get affected in different circumstances.

Studies Conducted in the Year

- Feasibility Study on Combating Child Trafficking and Bonded Labour in Rajasthan
- Crime Trend under POCSO Act, 2012 in Rajasthan (An Analysis of six Districts)
- Research Study on Care & Protection of Children of Women Prisoners in 9 central prisons of Rajasthan
- Rehabilitation of Children in Conflict with Law
- Mapping of Critical Services and Needs of the Residents especially of Children in Open Air Camp, Sanganer, Jaipur (Rajasthan)
- Study of Internet Usage Pattern Among Urban Adolescents in Rajasthan
- Study on strengthening FIRs in the best interest of Child Labor Survivors in the Society
- Vulnerability assessment of child labour in Bihar and Rajasthan
- My Safer Jaipur: Rapid assessment analysis

Feasibility Study on Combating Child Trafficking and Bonded Labour in Rajasthan

The study has been conducted with the objectives of describing and estimating the problem, identifying key stakeholders and strategies, and making recommendations for the programme to bring about a measurable reduction of children in the targeted sectors and regions of the state. The study included a detailed desk review of secondary data and interaction with Government representatives in relevant departments, a range of civil society organisations working on related issues, and people who are in bonded labour as well as current and ex-child labourers in different locations in Rajasthan.

Crime Trend under POCSO Act, 2012 in Rajasthan (An Analysis of six Districts)

The research study is based on an assessment and analysis of POCSO cases registered in six districts of Rajasthan viz. Jaipur, Ajmer, Alwar, Jodhpur, Bikaner and Baran. The findings of the study have

been carried out on the basis of secondary data collected from the Police department which include the FIRs, charge sheets, statements of victims, perpetrators and of other stakeholders. These information have been consolidated and compiled. The study brings out the demographic, socio-economic, profile of the victim and the perpetrator, the circumstances under which the crimes had taken place, etc. It is helpful for the Police Department to understand the essential factors pertaining to crimes of such nature, strategise the preventive measures and plan the corrective course of action.

Research Study on Care & Protection of Children of Women Prisoners in 9 central prisons of Rajasthan

The study will help key stakeholders to understand the situation of the children of women prisoners (their daily routine of life in prison, services available for their care, protection, health, education and development, interactions with the inmates and administration of the prison, contact with the outside world, family members and relatives, etc and problems/challenges faced by children, women prisoners and concerned authorities on a regular basis). The findings of study and recommendations will contribute towards addressing their long-term problems they encounter after release from prison like; life-long stigma of living in prison, difficulty in adjusting with other siblings and family members, attention seeking behaviour of children, difficulty in understanding and distinguishing different relationships, inability to recognize relatives, socializing with other children of the same age group and making friends.

Rehabilitation of Children in Conflict with Law

The purpose of the study is to understand the actual status of rehabilitation prevalent under the juvenile justice system and to find ways of further strengthening the rehabilitation and reintegration of Children in Conflict with the Law (CICL). In the study, attempt of examining the rehabilitative measures undertaken for the children within the juvenile justice system and examining the perspective of the adults about the children and their rehabilitation has been made. Study also analyses the secondary data on Juvenile Delinquents from NCRB portal and published sources from 2011 to 2016. Study findings and recommendations highlight aspects of administration of observation homes and place of safety, deployment of trained human resources, contact of children with the outside world, family members, relatives, etc.. It is expected that, the study will help key stakeholders to understand status of rehabilitation of CICLs in CCIs and existing gaps, quality of skill development programmes implemented for CICLs and level of engagement of facilitators/experts, participation and interests of CICLs in reformatory programmes, challenges faced by CICLs, facilitators/experts and concerned authorities.

Mapping of Critical Services and Needs of the Residents especially of Children in Open Air Camp, Sanganer, Jaipur (Rajasthan)

The purpose of the study is to prepare mapping of services provided in open jail and their relevance or impact, mapping of critical developmental service needs of the residents (families and individual) of open jail, Sanganer, Jaipur specially focusing on the needs of children and women, to examine the level of satisfaction/content of the residents about received facilities in open jail, mapping and analysis of collected data on children of prisoners living in open jail. Also to come up

with recommendations for planning and execution of customized interventions to meet out individual needs and carry out the opinion/view of respondents and their concerned officials about life in jail v/s Open Jail (correctional facilities).

Study of Internet Usage Pattern Among Urban Adolescents in Rajasthan

This study has been conducted in order to find out the internet usage pattern of the adolescent population of Jaipur city. Since internet is dominating the human race in the present times, it has become specially important to know how the adolescents falling in the age group of 14 to 16 years are using internet, what activities they are indulged in, how much time they spend on the web in various activities, their presence on the social media, etc. This research would enable us and all Child Protection and Mental Health functionaries to understand the web-psyche of the adolescent school goers and figure out the needs and requirements of not only the current times, but also of the time to come in terms of the holistic welfare of the adolescents.

Making Strong FIR & Charge Sheet for Increasing the Conviction and Mainstreaming the Child Labour Survivors in the Society

The study aims to identify major issues and gaps to provide recommendations on the FIR and Charges Sheets pertaining to child labour, particularly hazardous work for minors, and possible approaches to effectively and strong FIR and Final report. It is helpful in the development of understanding on writing strong FIR, conviction in the child labour cases and mainstreaming the child labour survivors in the society. The study report provides an overview of the child labor cases reported in Jaipur north region, quality of FIRs and Charge sheets written and filed in the cases, time taken in the investigation process of the cases as well as the recommendations to improve the quality of strong FIRs and Charge Sheets for increasing conviction rate in child labor cases. It also sensitizes the police personal, line departments and related stakeholders about the situation of the children involved in child labor and how they are exploited, how the accused and traffickers are breaching off their rights. The report also provides objective recommendations for doing necessary efforts to stop the child trafficking and child labor.

Vulnerability Assessment of Child Labour in Bihar and Rajasthan

The study has been conducted in Jaipur and Udaipur in Rajasthan and in Gaya, Bihar, to assess the vulnerability of child labour. The objectives of this study are to factors responsible for children to get into the trap of trafficking, difficulties faced by the children vulnerable to child labour, Government's perspective in handling the gaps in child labour cases and to propose potential policy/program measures that consider holistic economic and social factors to prevent children becoming vulnerable to trafficking and child labour.

My Safer Jaipur: Rapid Assessment Analysis

This study has been conducted by The Jaipur Police Commissionerate in partnership with Centre for Child Protection with support from UNICEF. It has been attempted to find out how safe or unsafe, the residents of Jaipur city feel at different public places in the city viz. home, school/ colleges, work, public spaces, public transport, on the road. It also includes the analysis of online safety aspects. Questionnaires for this purpose were filled through online medium and physical data collection.
